**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

We support broadband competition in our rural America. We have a competitive and effective provider in the present field of utilities that is very cost effective and has even better service than the large companies. The larger companies offer a more expensive service that has more problems such as dropped calls, down time, and disconnected calls.

Since we are a medical office, communication is very important to us. We were able to improve our reliability while reducing our costs and supporting local business.

I would not support any rationale that would limit the competition of our broadbands and phone service.

With respect,

JOEL KING
